"Crafting code with precision, delivering experiences with purpose."

Summary

Innovative and detail-oriented Frontend Developer with a strong foundation in programming logic, design principles, and problem-solving. Skilled in transforming complex requirements into responsive and visually appealing interfaces. Passionate about personal growth and effective communication, bringing a proactive approach to debugging and optimization. Known for a creative mindset, strong analytical abilities, and commitment to delivering user-centric solutions with a focus on continuous improvement and collaboration within development teams.

Education

Patan Multiple Campus, Tribhuvan University   *Patan, Nepal*
BACHELORS IN COMPUTER SCIENCE AND INFROMATION TECHNOLOGY   *2020-current*
- Electives on Image processing, E-commerce, Software Project Management

Skills

Back-end	Python
Front-end	HTML5, CSS, Javascript,REACT JS, NEXT
Programming	C, C++, Python
Mobile	React Native
UI Design	Figma
Miscellaneous	Git, GitHub, Linux
Languages	English, Nepali
Soft Skills	Enthusiastic, Self learner, Passion for new technologies, Problem solver and teamwork

Experience

Raijin Tech Pvt. Ltd.   *Koteshwor, Nepal*
FRONTEND DEVELOPER   *Nov. 2023 - Present*
- Developed a feature-rich dashboard for a music application using React.js, focusing on efficient data handling and responsive UI design.
- Implemented state management using Redux Toolkit, enabling efficient and consistent updates across components.
- Enhanced data fetching precision and performance by utilizing Axios for API communication.
- Handled form submissions and validations ensuring a smooth and secure checkout process.
- Integrated React Router to ensure smooth and intuitive navigation within the dashboard.
- Optimized dashboard using reusable components, improving maintainability and scalability.
- Built a mobile music application using React Native, featuring full functionality for displaying song chords.
- Improved user experience with React Navigation, delivering seamless transitions between app screens.
- Contributed to the development of an E-Commerce website using Next.js, focusing on server-side rendering (SSR) for better SEO and faster load times.
- Designed and developed category-specific product pages, enhancing user engagement with targeted interfaces.
- Worked closely with the backend team to align API endpoints with frontend requirements, reducing data redundancy.
- Adopted best practices for code optimization and performance, reducing load times and improving responsiveness.

Personal Projects

Nepal Stock Exchange Data Scraper and Database Updater   *Nepal*
PYTHON DEVELOPER   *Nov. 2024*
- Developed an automated data scraping tool using Selenium to fetch stock market data from the Nepal Stock Exchange (NEPSE).
- Implemented a database update system to store and maintain the stock data.
- Designed and trained an LSTM (Long Short-Term Memory) model to predict stock prices based on historical market data.

Staff Record Management System *Nepal*

EACT DEVELOPER *Nov. 2023*

- Developed a application for managing staff records in a company, including functionalities for adding, updating, and deleting staff details using React.js .

Staff Record Management System *Nepal*

REACT DEVELOPER *Nov. 2023*

- Developed a application for managing staff records in a company, including functionalities for adding, updating, and deleting staff details using React.js .
